

Environmental Policy

SunRice is committed to managing its operations in an environmentally sustainable manner, through continuous improvement in the environmental performance of all our activities.

Accordingly SunRice will do all that is reasonably practicable to:

- Identify the environmental impact of our operations and reduce the environmental impact through a program of continuous improvement;
- Apply environmental management systems as part of our day to day operations practice and ongoing management reporting and control procedures;
- Meet or exceed the requirement of legislation and responsible consumer opinion;
- Work in cooperation with members of industry, government bodies, suppliers and customers to promote the achievement of high standards of environmental care;
- Heighten employees' environmental awareness by suitable training;
- Reduce waste, conserve energy and explore opportunities for re-use and recycling;
- Set annual improvement objectives aimed at improving the overall environmental performance of the business.

G Lawson
